This key investor information is accurate as at 31 December 2022.

You are about to purchase a product that is not simple and may be difficult to understand

What is this product?

Type	This product is a whole of life Unit Linked Assurance policy.
Objectives	This product is a whole of life, regular premium Unit Linked Assurance policy with annual inflationary increase for the first 10 years that aims to provide an insurance benefit to the policyholder, whilst allowing for capital growth through the underlying investment options. The product offers a range of best of breed underlying investment options that the policyholder can select from multi-asset funds. This allows the policyholder to build its own investment strategy in order to personalize a targeted level of return. The policyholder can also switch between underlying investment options and redirect future premium payments allocation.
Maturity	This product is open ended.
Intended retail investor	The type of investor to whom this product is intended to be marketed to varies on the basis of the underlying investment option. The insurance element of this Key Information Document is based on a life of age 35 and a Sum Insured of €100.000. Information regarding the funds can be found in the accompanying Key Information Document of your chosen Underlying Investment Options. This document is also available at www.cnpcyprialife.com .
Insurance benefits	Cypria Global Plus provides a guaranteed Death Benefit. The Sum Insured is guaranteed only up to the first review date (ten years). This plan is subject to review after the first ten years and every five years thereafter (on every anniversary after the age of 75). Premium payments can be made monthly, quarterly, half-yearly or yearly. The premium level will automatically be increased by 5% for the first 10 years at each policy's anniversary. The policyholder has the right to remove the premium's indexation at each policy's anniversary. The allocation charges on the first year are 80%, on the second year 2 50%, on the third year 30% and 0% thereafter.

What are the risks and what do I get in return?

Risk indicator

← Lower risk Higher risk →

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The product offers a range of underlying investment options with risk classes ranging from 2 as the lowest and 6 as the highest. The risk and return of the investment varies on the basis of the chosen underlying investment option.

Level 2: This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Level 3: This rates the potential losses from future performance at a medium low level, and poor market conditions are unlikely to impact our capacity to pay you.

Level 4: This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Level 5: This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely to impact the capacity to pay you.

Level 6: This rates the potential losses from future performance at a high level, and poor market conditions are very likely to impact the capacity to pay you.

However, this protection against future market performance will not apply if you fail to make your payments in time.

The performance of the product, outside of the death scenario, is highly correlated with the performance of the chosen underlying investment option.

Information regarding risk and return, and performance of the investment options can be found in the accompanying Key Information Document of your chosen Underlying Investment Options. This document is also available at www.cnpcyprialife.com.

This product does not include any protection from future market performance so you could lose some or all of your investment.

What happens if CNP Cyprialife is unable to pay out?

You may face a financial loss should the manufacturer, CNP Cyprialife Limited, default on their obligations. There is no compensation or guarantee scheme in place which may offset, all or any of, these potential losses.

What are the costs?

The costs that you are due to pay, including costs associated with future variations to the underlying investment options will depend on policyholder's underlying investment options choices.

Information regarding costs can be found in the accompanying Key Information Document of your chosen Underlying Investment Options. This document is also available at www.cnpcyprialife.com.

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest €1,000 each year.

The figures are estimates and may change in the future.

Table 1: Costs over time

Investment scenarios [€1,000 per annum]			
	If you cash in after 1 year	If you cash in after 10 years	If you cash in after 20 years (recommended)
Total costs	n/a	€2.343	€5.768
Impact on return (RIY) per year	n/a	2,34%	1,44%

Table 2: Composition of costs

The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period
- What the different cost categories mean.

One-off costs	Entry costs	0,19%	The impact of the costs you pay when entering your investment. [<i>This is the most you will pay, and you could pay less</i>].
	Exit costs	0,0%	The impact of the costs of exiting your investment when it matures.
Ongoing costs	Portfolio transaction costs	*	The impact of the costs of us buying and selling underlying investments for the product.
	Cost of Insurance	0,99%	The impact of the amount you are paying to buy insurance protection.
	Other ongoing costs	0,26%	The impact of the costs that we take each year for managing your investments.
Incidental costs	Performance fees	0,0%	The impact of the performance fee, We take these from your investment if the product outperforms its benchmark.

*it is included in the Key Information Document of your chosen Underlying Investment Options

How long should I hold it and can I take my money out early?

Recommended holding period: 20 years

This product has no required minimum holding period but is designed for long term investment; you should be prepared to stay invested for at least 20 years. You may withdraw from this product after 20 years without paying any penalty, by submitting the appropriate form to CNP Cyprialife.
