## What is this product?

<b>Type</b>	This product is a Unit Linked Assurance policy.
<b>Objectives</b>	This product is a regular premium Unit Linked Assurance policy that aims to provide an insurance benefit to the policyholder, whilst allowing for capital growth through the underlying investment options. The product offers a range of best of breed underlying investment options that the policyholder can select from multi-asset funds. This allows the policyholder to build its own investment strategy in order to personalize a targeted level of return. The policyholder can also switch between underlying investment options and redirect future premium payments allocation.
<b>Maturity</b>	This product has a fixed duration of 10 years.
<b>Intended retail investor</b>	The type of investor to whom this product is intended to be marketed to varies on the basis of the underlying investment option. The insurance element of this Key Information Document is based on a life of age 35 and a Sum Insured of €100.000. Information regarding the funds can be found in the accompanying Key Information Document of your chosen Underlying Investment Options. This document is also available at <a href="http://www.cnpcyprialife.com">www.cnpcyprialife.com</a> .
<b>Insurance benefits</b>	Cypria Advantage provides a guaranteed Death Benefit. Premium payments can be made monthly, quarterly, half-yearly or yearly. The allocation charges are only on the first year and are 30%.

## What are the risks and what do I get in return?

### Risk indicator

Lower risk

Higher risk

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The product offers a range of underlying investment options with risk classes ranging from 2 as the lowest and 6 as the highest. The risk and return of the investment varies on the basis of the chosen underlying investment option.

**Level 2:** This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

**Level 3:** This rates the potential losses from future performance at a medium low level, and poor market conditions are unlikely to impact our capacity to pay you.

**Level 4:** This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

**Level 5:** This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely to impact the capacity to pay you.

**Level 6:** This rates the potential losses from future performance at a high level, and poor market conditions are very likely to impact the capacity to pay you.

However, this protection against future market performance will not apply if you fail to make your payments in time.

The performance of the product, outside of the death scenario, is highly correlated with the performance of the chosen underlying investment option.

Information regarding risk and return, and performance of the investment options can be found in the accompanying Key Investor Document of your chosen Underlying Investment Options. This document is also available at [www.cnpcyprialife.com](http://www.cnpcyprialife.com).

This product does not include any protection from future market performance so you could lose some or all of your investment.

## What happens if CNP Cyprialife is unable to pay out?

You may face a financial loss should the manufacturer, CNP Cyprialife Limited, default on their obligations. There is no compensation or guarantee scheme in place which may offset, all or any of, these potential losses.

### What are the costs?

The costs that you are due to pay, including costs associated with future variations to the underlying investment options will depend on policyholder's underlying investment options choices.

Information regarding costs can be found in the accompanying Key Information Document of your chosen Underlying Investment Options. This document is also available at [www.cnpcyprialife.com](http://www.cnpcyprialife.com).

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest €1,000 each year.

The figures are estimates and may change in the future.

**Table 1: Costs over time**

<b>Investment scenarios [€1,000 per annum]</b>			
	<b>If you cash in after 1 year</b>	<b>If you cash in after 5 years</b>	<b>If you cash in after 10 years (recommended)</b>
<b>Total costs</b>	n/a	€962	€1.891
<b>Impact on return (RIY) per year</b>	n/a	3,85%	1,89%

**Table 2: Composition of costs**

The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period
- What the different cost categories mean.

<b>One-off costs</b>	<b>Entry costs</b>	0,30%	The impact of the costs you pay when entering your investment. [ <i>This is the most you will pay, and you could pay less</i> ].
	<b>Exit costs</b>	0,0%	The impact of the costs of exiting your investment when it matures.
<b>Ongoing costs</b>	<b>Portfolio transaction costs</b>	*	The impact of the costs of us buying and selling underlying investments for the product.
	<b>Cost of Insurance</b>	1,06%	The impact of the amount you are paying to buy insurance protection.
	<b>Other ongoing costs</b>	0,53%	The impact of the costs that we take each year for managing your investments.
<b>Incidental costs</b>	<b>Performance fees</b>	0,0%	The impact of the performance fee, We take these from your investment if the product outperforms its benchmark.
