

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Name: Income Fund
Manufacturer: ERB Cyprialife Limited
Group: ERB Cyprus Insurance Holdings Limited
Competent Authority: Superintendent of Insurance, Cyprus

For any information, clarification or comment about the product you can call at 22 11 12 13 or visit our website. The information provided in this document is accurate as of 31/12/2024.

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type

Investment Fund. This product is offered in combination with an insurance product.

Term

This Fund is open ended. The recommended holding period is 20 years.

Objectives

The Fund invests in bonds and cash deposits and other money market instruments. The Fund's credited yield is re-set half-yearly in advance and remains the same during each six-monthly period. Through this mechanism the company ensures that at each month-end the Fund unit price will be higher than or equal to that for the preceding month. The value of your investment fluctuates according to the Fund's performance. Previous performance does not guarantee future returns.

Intended retail investor

The Fund is aimed at investors who are willing to take medium-low investment risk.

What are the risks and what could I get in return?

The risk indicator assumes you keep the product for 20 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. Information regarding the surrender charges can be found in section "How long should I hold it and can I take money out early?"

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the manufacturer is not able to pay you. We have classified this product as **3** out of 7, which is a **medium-low** class. This rates the potential losses from future performance at a **medium-low** level, and poor market conditions are **very unlikely** to impact the capacity of the manufacturer to pay you. This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period: 20 years
Investment: €1.000 per year

		If you cash in after 1 year	If you cash in after 10 years	If you cash in after 20 years
Scenarios				
Minimum		You could lose some or all of your investment		
Stress	What you might get back after costs	€940	€9.080	€17.450
	Average return of each year	-5,8%	-1,8%	-1,3%
Unfavourable	What you might get back after costs	€940	€9.120	€17.580
	Average return of each year	-5,7%	-1,7%	-1,2%
Moderate	What you might get back after costs	€940	€9.140	€17.650
	Average return of each year	-5,7%	-1,6%	-1,2%
Favourable	What you might get back after costs	€940	€9.180	€17.790
	Average return of each year	-5,6%	-1,6%	-1,1%
Amount invested over time		€1.000	€10.000	€20.000

The figures shown include all the costs of the product itself. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable, moderate and favourable scenarios shown are illustrations and are derived from the analysis of 10,000 scenarios of the Fund's value.

What happens if ERB Cyprialife Limited is unable to pay out?

In such a case you may face financial loss. There is no compensation or guarantee scheme in place which may offset, all or any of, these potential losses.

What are the costs?

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed

— In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

— €1.000 per year is invested.

	If you cash in after 1 year	If you cash in after 10 years	If you cash in after 20 years
Total costs	€57	€884	€2.436
Annual cost impact (*)	5,7%	1,7% each year	1,2% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 0,0% before costs and -1,2% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee for this product.	N/A
Exit costs	We do not charge an exit fee for this product.	N/A
